Toronto, August 8th, 1913.

Dr. George G. Nasmith,

Director of Laboratories,

Department of Health,

City Hall,

Toronto.

Dear Dr. Nasmith,-

I find that Dr. [illegible] is to be back on Monday or Tuesday of next week, and I think it would be advisable to wait until he comes to receive formal permission for the use of the incubator in his Laboratory. I have spoken to Dr. Fitzgerald about it and he agrees with me that there is probably no objection and we hope that you will be able to have the use of our incubators. If by Wednesday he has not returned, will you telephone to me again so that I may take emergency steps.

I leave town on Thursday night of next week.

Yours sincerely,

President.
